R1

To The Collector in Dindigul &

Madura

Sir,

Para 1st. With reference to my letter of the 12th Instant, I am directed by the Board of Revenue to transmit for your information and guidance the following observations by the Honorable the Governor in Council;–

the Secy to Govt. Pr. Collr. of North t 12th Decr. 1823 para 2d.

Perfect freedom of market by which the public interests are best promoted at all times is most essentially necessary in a season of scarcity. The want of it tends at all times to make grain scarce and dear, but when that is the case already it tends to produce a famine. If the scarcity is not real, the dealers have no motive for keeping back a sufficient supply from the market and they are not able to enhance the price beyond what will yield them the ordinary rate of profit.– If a scarcity is only apprehended, the case

will

will be the same as soon as the apprehension is removed. If it be real, or be apprehended on good grounds, the best alleviation of the evils unavoidably attendant upon it, is to satisfy the dealers in grain that they will be effectually protected against popular violence and against the interference of public authority. In giving them this assurance, which you should constantly do, you will have the opportunity of encouraging them to supply the Markets in proportion to their stock in hand, their only objects in not doing so being to raise the price and to escape plunder." —

2 You will cause it to be fully understood in your District that no obstruction of any kind is to be thrown in the way of the transit of grain into and out of Madras and other places.

I have the honor to be

Sir,

Your Most Obedient Servant

J. C. Morris

Fort St. George
